WHY SPLASH SQUAD?

Brand New
Be one of the first to have Splash Squad in the world.

Modular & Scalable
Start small or build a full mini-park. Add modules anytime.

Shallow-Water Ready
Works from just 0.9m depth upward. Ideal for kids 4–12.

UK Stock
Fast delivery and local based support.

Built for Operators
Lightweight modules (under 36kg) for easy lifeguard handling.

Proven Aquaglide Quality
3rd Party Tested to ISO 25649, & trusted worldwide.

Bring big-park fun to shallow water.

Splash Squad is a modular system of floating play features built for younger kids and shallower waters.

Fast to install. Easy to configure. Built tough for commercial use.

Design any park, any size, Your Way. Each module connects seamlessly with our D-Ring Interlock system.

Perfect for pools, shallow lakes, and waterfronts where traditional parks don't fit.

Fast, Flexible & Profitable

Splash Squad lets you expand to a younger age group, increase capacity, and boost repeat visits without needing deep water or heavy installs.

It's the perfect upgrade for pools, camps, and holiday parks looking to stand out from the rest!

CASE STUDY

Client

Aztec Adventure
Multi-award-winning outdoor activity and Aquaglide aquapark operator.

Requirement

Aztec wanted a kid-first water attraction to safely serve 6 to 8 year-olds away from the busy main aquapark in an area of shallower water, to grow family footfall and birthday/group bookings whilst still meet the latest UK accreditation standards for aquaparks.

Solution

Aztec installed Splash Squad circuit layout at the end of August 2025. Being the first in Europe and operating with huge success into Autumn 2025, reopening in Spring 2026

What made it work? The right product for the right site - with its modular system a perfect layout was achievable to meet the client's needs.
