COMMERCIAL AQUAPARKS

AQUAPARKS

THE AQUAGLIDE WAY

FAST SETUP. SIMPLE OPERATION. SERIOUS ROI

With the UK's most trusted inflatable waterparks.

2027 EDITION

WHAT IS AN AQUAGLIDE AQUAPARK?

An inflatable obstacle course that can be installed on most bodies of water. They are sealed units, and do not require constant inflation, they are NOT a bouncy castle.

Hugely popular across all demographics, from children's parties to stag and hen do's, family days out to school trips and everything in between.

They allow safe and fun access to water, whilst generating an incredible commercial return for the operator.
